ABOUT US

At Main Door Corporation, we strive to build long-lasting relationships in our team. We share the common goal of offering the best experience to our customers, shaping our work environment to provide the best product possible from the very beginning of our process. With wood as our primary supply, we focus on responsible resource management as a sustainable effort to preserve this resource for the future generations. Our team members support each other while facing and overcoming daily challenges, ranging from managerial decisions, inventory analysis, workflow management, machinery supervision, and quality control.

If you wish to join our team, check our current open positions below.

OPEN POSITIONS

PRODUCTION DESIGNER

Employee Type:

- Full-Time

Shift:

- Day

Requirements:

- Bachelors degree in Engineering;
- One year of training in Graphic Design; and
- Two years of experience as Production Designer or Production Manager.

Description:

- Create new and analyze or recreate existing AutoCAD projects for product standardization and quoting purposes, displaying clear product specifications and construction, and ensuring version control internally and externally (through contact with suppliers);
- Create, use and maintain user-friendly inventory control spreadsheets to plan future purchase orders, ensuring version control and data accuracy based on supply chain;
- Plan, present, and create purchase orders based on aforementioned spreadsheet that ensure a fluid supply chain with no product unavailability;
- Design and edit graphics, visual reports, photographs, and other visuals, following branding policies and style guides.

Preferred Qualifications:

- Skills in the Adobe Creative Package and AutoCAD;
