

2023 EXTERIOR & INTERIOR DOOR CATALOG

UP TO 2 WEEK LEAD TIME

OUR HISTORY

In 1996 Main Door was founded with the basic philosophy to offer the best quality solid wood entry door (no veneer) combined with the best customer service possible. Our home office, showroom, manufacturing facility and warehouse are located in Los Angeles, California.

We are committed to the protection of the environment through proper forest management. Our product line is shipped directly from state-of-the-art manufacturing facilities that responsibly harvest the lumber in accordance with FSC® standards. Our close relationship with these manufacturers enables us to offer top-of-the-line green products that are priced below the competition.

Main Door is proudly FSC® certified by NEPCo, a partner of the Rainforest Alliance. We are also certified by NAMI's NFRC 11-step certification program on door performance testing.

The mark of
responsible forestry

DECORATIVE RUSTIC HARDWARE

Our Rustic doors can be configured with an array of decorative rustic hardware. A functional speakeasy allows you to see who's at the door. Wrought iron grilles adorn and add protection to the glass in Rustic sidelites. Round or square corner brackets and clavos (decorative nails) can be added to both sides of your entry door. (decorative upgrades at additional charge)

CUSHION CLOSE Q-LON

As a unique feature Main Door Mahogany Type Interior Doors use premium sealed door frames. These airtight seals add noise insulation, shock absorption and dust control.

All solid Mahogany type frames are custom built and can be ordered sized 4" to 7-1/2" in width to match the door finish.

Unfinished or finished trims available at additional cost.

ABOUT THE COLLECTION

Our Mahogany Type collection is manufactured with a durable and solid hardwood. This hardwood is valued for its rich grain, adding warmth and style to any home.

- 100% Solid Wood No Veneers
- Classic exterior raised mouldings
- Several glass options including privacy
- Custom sizes to fit most openings

DOOR SPECIFICATIONS

Exterior Doors:

- Thickness: 1-3/4"
- Width: 30", 32", 36", 42" for doors & custom 11" to 16" for sidelites
- Height: 6'8" (80") & 8'0" (96")
- Panels: 1-3/4"
- Construction: All solid wood stile and rail that are securely joined by type I glued dowels and solid wood free-floating center panels, no thin veneer over particle board.
- The solid wood stile and rail Mahogany Type and American Red Oak collections only, have raised moldings on one side.

Interior Doors:

- Thickness: 1-3/8"
- Width: 24", 28", 30", 32", 36"
- Height: 6'8" (80")
- Panels: 1-3/8"
- Construction: Solid stile and rail construction and solid wood panels, Dowel Construction, type I exterior glue (no thin veneer over particle board) with floating panels.

PREHUNG CONSTRUCTION

- Custom sizes to fit most openings within configurations (see image below);
- The entry door (active/operable) is pre-drilled with two 2-1/8" face holes for standard bore & deadbolt and a 2-3/8" back set, with standard 5-1/2" vertical spacing and one 1" edge hole (no mortise for strike plate in the jamb leg or t-mullion);
- Solid wood jamb, in matching species and finish, offered in custom widths: 4-9/16" to 11";
- Jambs not prepped for strike plates due to manufacturer differences;
- Units include 4x4" ball-bearing solid brass hinges, weather-strip, door sweep, and sill.
- Sidelite sizes on every prehung unit are based on the custom net frame width and height

Configurations:

Door	Door+Left SL	Door+Right SL	Door+Double SL	Double Door+Left SL	Double Door+Right SL	Double Door+Double SL

* Slab Doors and Sidelites available on all collections, except Dutch Door Collection.

GLASS OPTIONS

We offer a large variety of glass designs and options, specific to collection and models, to complement your unit.

Specifications:

CUSTOM GLASS

Dual glazed inserts for square glass models only can be assembled from commercially available stock glass, such as gluechip, reeded, or clear glass (quoted separately). Please allow additional time to quote and verify availability.

VENTING & OPERABLE SIDELITES

Venting & Operable Sidelites

Main Door offers Venting & Operable Sidelites so to provide customers with the maximum value and flexibility. Venting Sidelites operate like single narrow doors (12"-16" wide) and include a thumb latch to secure door. Operable Sidelites open like a double-door with Tastragal and flush bolts. This increases the maximum opening of a single door by as much as 12"-16" inches. Thumb latches are not installed. Screens are not available through Main Door.

Flush Bolts

Our flush bolts allow secure locking of a secondary door in a double door or an operable sidelite.

In-Swing or Out-Swing

Entry doors can be custom configured as standard in-swing or optional out-swing. Out-swing units ship with special hinges featuring non-removable pins.

OTHER CUSTOM SOLUTIONS

Wider Mull Posts

A wider Mull Post can increase the maximum unit width by as much as 4" per post (additional charge).

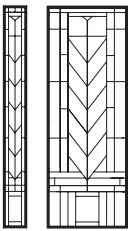

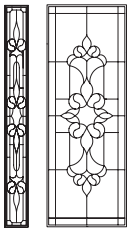

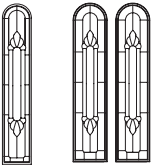

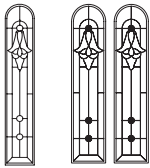

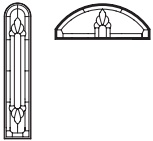

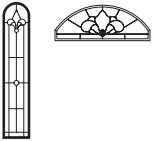

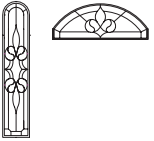

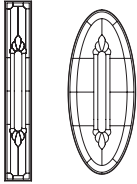

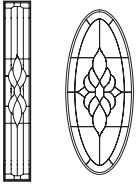

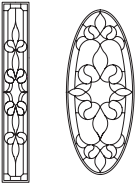

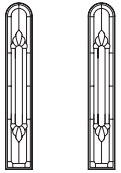

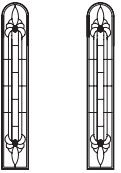

Custom Mouldings & Floor Transitions

Wider, custom mouldings and floor transitions are available (additional charge).

Doors and sidelites can be mixed and matched to your personal taste. These glass options are for Mahogany Type and American Red Oak Collections only.

THE BEAUTY OF REAL WOOD

Variations in color, texture and grain between stiles, rails and panels, are what make solid wood products both beautiful and unique and is one reason why they have such appeal. It is a natural characteristic and cannot be misinterpreted as a defect.

Our open-grain finish process enhances the natural beauty of the wood by keeping the wood grains visible. Stain and semi-transparent paint finishes allow the difference in wood tones to be seen. Paint finishes do not allow the difference in wood tones to be seen.

PACKAGING AND SHIPPING

As with our product, we take pride in our production, packaging, palletizing and crating methods. We go through great lengths to ensure that your investment is delivered safely.

All custom orders are packaged using triple-layered cardboard, plastic wrap, and wood pallets with 1x2" and 2x4" framework, ensuring proper shipping and handling of your unit. We ship all orders on an LTL environment, where strict procedures are in place during freight loading.

Immediately upon receipt of the order, The Home Depot must completely inspect all products for any eventual damage. Discovered damage or defective units must be immediately noted on the bill of lading in the presence of the carrier, notified to Main Door Corporation, and shipped back in the same condition in which it was received.

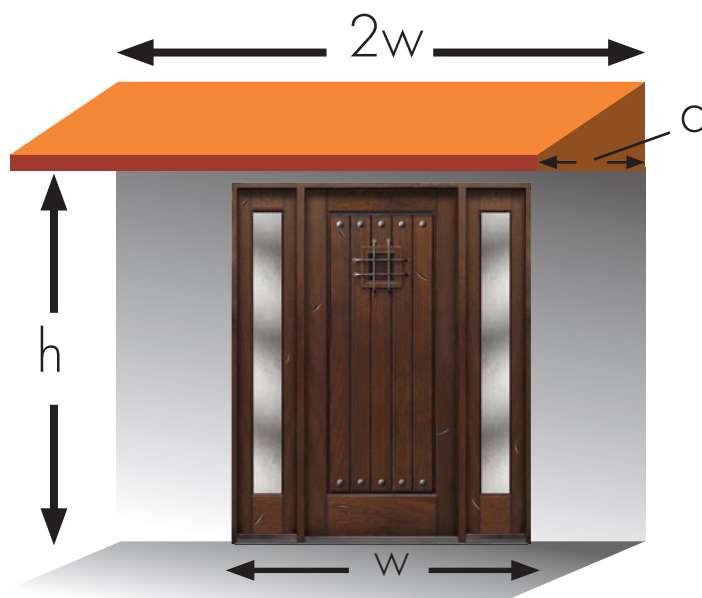

PROTECT YOUR DOOR FROM THE ELEMENTS

All Solid Wood Entry Doors require adequate protection from the elements. Lack of proper overhang will void the warranty. The projected overhang depth must be equal or greater than 1/2 the overhang height for North and East facing doors and equal to the overhang height for South and West facing doors. Overhang width must be twice the width of the door (see graphic). South or Western facing doors will benefit from larger overhangs.

DEPTH OF OVERHANG FOR DOOR FACE DIRECTION			
NORTH	SOUTH	EAST	WEST
$d = 1/2 h$	$d = h$	$d = 1/2 h$	$d = h$

Follow the guidelines below for a proper installation and warranty coverage. Professional installation is highly recommended. Warranty will be voided if:

- Storm Door is Installed
- Door is Installed in Direct Sun
- There is No Proper Overhang
